

Solix Enables Effective & Efficient Administration of Rental Assistance Funds

Connecting People to Essential Services

Solix is a leading national provider of complex regulatory program management solutions with a focus on compliance, eligibility determination, customer care, and technology solutions.

For more than 20 years, we have successfully designed, implemented, and administered state and federally funded grant and benefit programs requiring regulatory knowledge, operational excellence, compliance expertise, secure technology, and outstanding customer service. Since our founding, we have supported the evaluation and award of more than \$100B in government funding.

Helping Deliver Services & Funding to the Most Needy Recipients

Solix has served as the Administrator for a variety of income-based eligibility, disaster recovery, and other regulatory oversight programs that assist in getting critical funds and services into the hands of eligible recipients who need it most.

Since the start of the pandemic, Solix has rapidly and successfully implemented a range of COVID-19 and CARES Act recovery projects, encompassing secure web portals in multiple languages, application review, client outreach and support, payment processing and audit file preparation. These programs include:

- Small Business Grants
- Small Business Economic Assistance
- Energy Assistance Relief
- Temporary Broadband Subsidies
- HUD CDBG-CV Program Services
- COVID-19 Vaccination & Testing Scheduling
- COVID-19 Immunization Information System (IIS) Data Entry Services

Rental Assistance Programs

Public entities seeking to effectively reach and support residents who need assistance with housing costs are choosing Solix to help their communities.

Solix is currently managing several recovery programs with total funding exceeding \$100M. Our services include application intake, review of lease agreements and rent ledgers, eligibility decisions, disbursement processing, validation of compliance with state /federal regulations, and comprehensive client support.

In addition, Solix has made the process extremely user friendly by developing and implementing web-based portals in multiple languages to allow applicants to quickly submit their applications and supporting documents. This speeds up the application review and funds disbursement processes. We also give our clients (the governmental agency) access to performance dashboards and reports to effectively and efficiently monitor program performance and outcomes.

The effectiveness of Solix' support, has led multiple clients to expand program funding by tens of millions of dollars.

Solix offers unique expertise in administering legislative & regulatory-driven processes focused on eligibility-based funding programs.
